EDUCATION

Red River College

Diploma in Aeronautical Maintenance Engineering

Winnipeg, MB

2022 – 2024

EXPERIENCE

Full Stack Engineer

Nov 2024 – Present

Coreli Solutions

- Built and deployed production-grade APIs using Django and Flask for client-facing applications.
- Migrated legacy applications to AWS, improving scalability and reducing operational costs.
- Collaborated in Agile environments through sprint planning, code reviews, and retrospectives.
- Worked closely with designers, QA, and product managers to deliver client-aligned features.
- Optimized PostgreSQL and MySQL queries and schemas, improving performance by up to 40%.
- Integrated third-party services including Stripe, Twilio, and SendGrid.
- Developed responsive front-end components using React and TypeScript.

Technical / IT Support

June 2021 – June 2022

TTEC

- Coordinated with team leads and managers to configure and deploy customer hardware.
- Diagnosed and resolved hardware and software issues for end users.
- Analyzed ticket data using Excel and internal IT tools to improve resolution rates.

Technical Support Advisor

Mar 2026 – June 2026

Teleperformance

- Performed advanced software diagnostics to identify and isolate bugs across devices and applications.
- Documented recurring technical issues and implemented clear resolutions to improve troubleshooting efficiency.
- Supported mitigation of security risks by following compliance protocols and identifying potential system vulnerabilities.
- Provided end-user technical support, resolving hardware and software issues through ticketing systems and remote troubleshooting.

PROJECTS

Groq Conversational AI Web Application

Mar. 2025 – Present

FastAPI, React, Groq API

- Built a FastAPI backend to handle chat requests and integrate with Groq API.
- Developed an AI chatbot using Llama 3.1 (8B Instant) model.
- Implemented a responsive React + Vite frontend with a clean UI.

Multi-User Chat Application

Python, Socket.IO, WebSockets

- Built a real-time chat platform supporting multiple users and message exchange.
- Implemented WebSockets using Python Socket.IO for real-time communication.
- Enabled dynamic usernames and room join/leave functionality.

TECHNICAL SKILLS

Languages: Python, C/C++, SQL (PostgreSQL), JavaScript, HTML/CSS

Frameworks: React, Node.js, Flask, FastAPI, WordPress, Material-UI

Developer Tools: Git, Docker, Google Cloud Platform, VS Code, Visual Studio, PyCharm, IntelliJ

Libraries: NumPy
